Marine Management Organisation – 3 Board Members

“The Marine Management Organisation (MMO) is the Government’s principal body for managing the seas around England. It helps us deliver our ambitious vision for sustainably managed seas and a flourishing marine economy.

Board Members will provide guidance and leadership to the MMO and work collaboratively with a wide range of stakeholders and partners within the Defra group and beyond. If you think that you have the ability to take on one of these rewarding roles then I strongly encourage you to apply.”

George Eustice, Minister of State for Agriculture, Fisheries and Food

Would you like to play a leading role in transforming the ways that we manage our seas as we leave the EU and the Common Fisheries Policy? We are seeking 3 new members for the MMO Board who are able to provide strategic leadership to this large organisation. The MMO is looking to add the following skills to the board: proven expertise of strategic oversight of a major change management process, legal expertise with an interest in maritime legislation or leadership of an IT transformation programme.

Applications are welcome from any candidate who meets the essential criteria for the role. For further information please contact Holly Wainwright, Defra Public Appointments Team on 020 8415 2913 or by email publicappts@defra.gsi.gov.uk

About the Marine Management Organisation: Established in April 2010, the MMO has powers under the Marine and Coastal Access Act 2009 and is responsible to the Secretary of State for Environment, Food and Rural Affairs with a wide range of responsibilities, which include implementing plan-led marine management, licensing marine works and managing UK fishing fleet capacity and UK fisheries quotas.

About Defra: Defra wants Britain to be a great place to live. Our work plays a critical role in the wellbeing of everyone in the country through the creation of healthy environments, a world leading food and farming industry, a thriving rural economy and enhanced protection against floods and animal and plant diseases. Appointing high-calibre people from diverse backgrounds with relevant skills, knowledge and experience to the boards of our public bodies will help us to ensure that our work is more effective, resilient and accountable.

The closing date for applications is noon on Friday 28th September 2018.
